# DIRECTORS

## **Gavin Raper** Director of Operations

Gavin has over 16 year's experience in the electrical trade, starting with an apprenticeship at Neca, to senior management to Business ownership which has now led to the current role, Director of Operations. Gavin is a qualified licenced electrician, having worked in the Residential, Commercial and the Industrial industries. Gavin's focus is on operations, project management and customer service.

## **Brent Raper** Director of Business

Brent holds more than 6 year's experience owning and operating a successful business in the cleaning / construction industry. He started from the bottom in 2007 and has experienced all aspects of the job from management to running a business. Brent is a self-motivated and resourceful Business owner with the ability to lead and grow all sectors of a business, making it a dynamic and progressive group. Brent's focus is on the company structure, financial management and business development.

# COMPANY PROFILE

Voltagen has a whole network of reliable and professional electricians available 24/7 at their disposal from employees to contractors. Our team can service the whole of Sydney and parts of the north and south coast. Voltagen's licenced and insured electricians can provide a full range of electrical services in a safe, clean and timely manner.

All of Voltagens employees/contractors undergo a rigorous training and selection process to ensure they can provide the highest standard of professionalism and service expected across all sites. All our clients will have access to the Directors of the business meaning that decisions can be made immediately on site leading to enhanced productivity.

**Voltagen is a family owned and operated business founded by two brothers Brent, and Gavin. Collectively the brothers have over 29 year's experience. Teaming up, they plan to expand the company across NSW by working closely and effectively with their clients, combining experience, high quality products and equipment with exceptional service. Voltagen specialises in Residential and Commercial services, from residential fit outs, corporate clients, luxury homes, Strata electrical installation and maintenance. All products used by Voltagen are of the highest quality and comply with Australian regulations.**
